## OBJECTIVE

- To obtain a challenging and interesting position that will allow me to utilize my skills in web design and computer graphics while working in an environment that promotes learning and employee growth.

## EDUCATION

- Virginia Commonwealth University, Richmond VA — Bachelor of Fine Arts, Communication Arts and Design, 2005

## EXPERIENCE

- Factory7—June 26,2005-Present  
During the course of this job I worked on the following websites: <http://www.factory7.com>, <http://www.comderm.com>, <http://ee.connorsheroes.org>, <http://www.olddominionmetal.com>, I also became familiar with database design, portal systems, basic hand coding, and advanced CSS design.
- Web Design Internship, Morgan Porter Design — Spring 2005  
Developed several web design projects during the course of the internship.
- Web Design Internship, Rock Spring Veterinary Hospital — Spring 2005  
Lead Developer for Internet Presence and Website .
- Design Internship, LGBT HEART — Fall 2004  
Selected to draft designs for a logo, and then create the finished product.
- Independent Projects  
Created numerous websites for various clients that can all be seen on my website under "websites."

## RELATED COURSE WORK

- Web Design 2 — Fall 2005  
skills developed include pop-up windows, advanced database web design, introduction to hand coding, introduction to Flash & Action Scripting, Quicktime VR's, Object VR's, advanced CSS web design, photo galleries. Was featured in the "student spotlight" for outstanding web design and media during this semester.
- Web Video — Fall 2004  
Learned how to compress video and audio for the web for Quicktime Windows Media and Flash players, create video display pages.
- Web Design Independent Study — Fall 2004  
Skills developed include phpbb message boards, intermediate database web design, intermediate CSS web design, and an intro to Java Script.
- Web Design 1 — Spring 2004  
Learned such skills as basic tables, roll-over images, Animated Gifs, links, intro to CSS web design, as well as an introduction to database driven web design.

## RELEVANT SKILLS

- Well versed in Studio MX products, as well as Transmit, Sorenson Squeeze, Illustrator, Photoshop, PhotoStitch, Cubic Converter, and Cubic Connector.
- Fluent in database driven web design (php based), as well as basic htm or html, CSS, and phpbb.

- Can produce Quicktime VR's as well as correctly put video on the web, and can install and maintain both a Message Board and a Photo gallery.
